At 7.00am on 1 July 1946, radio listeners in eastern Australia tuned into a Paradise revealed: natural history in nineteenth-century Australia,

Their 'savage' peoples, their isolation, and their sheer beauty fascinated British visitors across the long nineteenth century. Dark Paradise argues that while the British originally believed the islands to be commercial paradises or perfect sites for missionary endeavours, as the century progressed, their optimistic vision transformed to portray darker realities. The book traces the changing British attitudes towards imperial settlement as the early view of 'island as paradise' gives way to a fear of the hostile islanders and examines how this revelation undermined a key tenant of British imperialism - that they were the 'superior' or 'civilized' islanders. Key Features.
