LEVEL THREE LEADERSHIP

The Darden Graduate School of Business Administration is a professional school that seeks to better society by developing leaders in the world of practical affairs.

Darden School Mission Statement, Academic Policies and Procedures Manual

Consistent with the mission of the school, all students are required to have a leadership-learning experience of at least 1.5 credit hours while attending Darden in order to graduate.

Academic Policies and Procedures Manual

“To every man there openeth a highway,
Some men take the high road
And some take the low,
The rest are on the misty flats
Where they drift to fro
Only you can choose which road,
The one we all have to take--
Over the Bridge of Sighs into eternity”

COURSE OBJECTIVES

The goal of this course is to help you avoid the “misty flats” of life by helping you to clarify your mission in life, to become more self-aware of your personal leadership model, and to strengthen your efforts at influencing others. In particular, this course focuses on influencing at Level Three, or the basic value level. I hope to have you challenge and re-examine your thinking and assumption on several very fundamental and key issues. More superficially, the course is intended to help you:

1. Become more self aware
 - a. Identify or clarify your life’s purpose and dream
 - b. Identify or clarify your personal leadership model
2. Develop skills in influencing others whether or not you have positional authority
3. Enhance your ability to think strategically and with vision
4. Prepare to develop and extend your leadership throughout your lifetime
5. Enhance your model of leading and managing change

COURSE ORGANIZATION

Level Three Leadership is organized around a set of modules that comprise the leadership challenge (as opposed to managing). These modules and their related core questions are:

VABEs	(Values, Assumptions, Beliefs and Expectations about the way the world is or should be.) Why do you (and others) behave the way you do?
CREATION	What do you want to create with your life?
EXPERIENCE	Does how you <i>feel</i> affect your performance?
EXECUTION	How can I get people to do what I want them to do?
CHANGE	How can I/a company keep up with the changing world around us?
MODELING	Whom do you admire and why?
RESULTS	What is success?

The meaning of these modules will become clear to you as the course unfolds. See the Course Schedule below.

COURSE REQUIREMENTS and PRINCIPLES

1. **PREPARATION AND PARTICIPATION:** (50% of your grade) On average I expect about two hours of *preparation* time for each class. You'll notice that on three classes, I've assigned an entire book for one class. My request is that you learn how to read a book in two hours. Most books have a few core principles and multiple anecdotes and examples that make the points. If you can "get" the core principles quickly, you won't have to read all of the examples and anecdotes. Also, if you can summarize a book in a *PowerPoint* file on 2-4 slides, you'll "have" that book, at least its core principles, for the rest of your life. You may wish to work with your Dyad Partner as well to collaborate on the reading—however this will mean meeting with your partner before class to consolidate your insights.

On *participation*, if you learn a lot but never share that with others what good is it? I place a high value on honest, forthright discussion and debate about real issues. You are in class as much for what you contribute as for what you take away. I expect you to be contributing to the discussion in every class.

2. **FINAL PROJECT:** (50% of your grade.) See below.
3. **WIKI-CASE:** At a time of your choosing, I ask that you make a one page contribution to the Darden wiki-case site. The site is designed so you can add pages on new topics or already established topics. Send me the URL for your contribution in an email. This write-up will count as *one* class contribution grade.

<http://mbaportal.darden.virginia.edu/ca/casewiki/Wiki%20Pages/Home.aspx>

4. **DYAD PARTNER:** During the course of the term you will be assigned to a Dyad Partner. Your assignment will be to meet with your Dyad Partner periodically to discuss topics in the course, share notes, and give them feedback data and suggestions. Sometimes we'll make time for this in class. Your Dyad Partner will give you *two* class participation grades based on the quality and helpfulness of your feedback. Sometimes you may wish to (read: *please do*) COLLABORATE with your DYAD PARTNER on large assignments by dividing and conquering.
5. **LEADERSHIP MODEL:** During the course you will be asked to identify a leader you admire and find out all you can about how they managed to be so effective. Student teams will give their reports on these leaders in classes 12 and 13 on April 20 and 21.
6. **STUDENT LEADERSHIP:** It's hard to practice leadership waiting for someone else (instructor) to set the agenda. Consequently, there will be times when I'll ask members of the class to lead the discussion. This activity will help you develop your planning and leadership skills.

CLASS DEPARTMENT REQUESTS

I invite you and ask you to:

1. Share my interest in having active, honest, deep discussions about important principles in leading and living (help create a *high energy learning bubble* in the room).
2. Come on time. (to protect the bubble)
3. Do not come and go from class; it disrupts the discussion. (breaks the bubble)
4. Come prepared having read all of the materials for the class. (creating the bubble, see Clawson Family Principle #7 on my website.)
5. Do not wear hats in class, please. (respect for classmates, a *VABE* from my mother)

GRADING

Your final course grade will be derived 50% from classroom contributions including the ancillary assignments outlined above and 50% from your final project. Attendance requirements will conform to Darden School policy.

LEVEL THREE LEADERSHIP FINAL PROJECT

Purpose

The purpose of your final project is to create a self-running PowerPoint file that will summarize and remind you in the future of the major insights you've gleaned from the course. The expectation is that you would be able to review this presentation three, five and ten years after graduation as a means of leveraging or extending your learning and tracking your evolving view of leadership. This presentation should contain, at a minimum, the following:

- Major insights that you gleaned from the course
- Your personal model of leadership
- Your Personal Charter as explained in the course
- Your Internal Life's Dream (*LDint*) as explained in the course
- Your personal model for managing change
- A description of the leadership principles of a person of your choosing. This person can be living or dead, but not someone from your own family. My request is that you choose this person early in the course and then begin gathering as much data as you can about him/her and learning as much as you can about this person's leadership style.

Structure

Your final project presentation should be *self-running*. By this I mean I can double click on the file and it immediately begins to run. You can save your PowerPoint file in a way that makes it a self-running file. There is more data on the techniques for creating self-running files at the course website: <http://faculty.darden.edu/levelthree/Index.htm>. The presentation should take less than eight minutes to watch. I'll ask you to e-mail this file to me at the end of the term.

Your presentation should be completely self-contained. Assume you're going to view it in three to five years and will need a complete package: introduction, purpose, content, conclusion, all flowing in a logical sequence. This will be a chance to practice your MC skills. Strength of logic, ease of comprehension, and powerfulness of presentation will all count as well as quality of content.

I invite you to use voice over, music, and other audio connections as you see fit to clarify and explain your presentation. Be careful and ***prepare in advance*** so that you know how to embed voice and/or music in a PPT file so that when you send it, everything comes through. There are a couple of examples posted on the course website. Do NOT copy the exact format of those presentations; just use them as examples of ones well done.

If you keep up with the assignments in the course, you'll be well prepared to develop your Final Project efficiently. I've designed the course so that if you do all of the daily assignments most of your final project is drafted if not polished and integrated.

Due Date

Your Final Project is due in my e-mail inbox by 4:30 pm as shown on the Course Schedule above. You may send your project in early if you wish; however, be careful that you do not do it so early that you don't benefit from all of the content in the course.

ADMIRED LEADER STUDENT PRESENTATIONS

At the beginning of the term, you will be assigned to or choose a small team who will select and research a leader whom you'd like to know more about. This person must be someone other than a family member. On April 20 or 21 your team will give a 10 minute presentation on the leadership of the person you chose. In between, you'll find out whatever you can on this person and consolidate your learnings into this brief presentation for the benefit of your classmates. This presentation will be the equivalent of 4 class contributions for you. Each team member will get the same class contribution grade.

WIKI-CASE CONTRIBUTION

At some time during the course I ask that you contribute a one-page new case to the Darden wiki-Case project. At present the Darden wiki-Case project is limited to the Darden community. Your contribution will be the equivalent of one class contribution grade. When you've made your contribution, simply send me an email with the web address of your wiki-Case included so I can go read it.

The Darden wiki-Case site is

<http://mbaportal.darden.virginia.edu/ca/casewiki/Wiki%20Pages/Home.aspx>.

You can edit any page by clicking on the EDIT button in the upper right hand portion of the page. Feel free to add new cases on any topic related to the course. If you find cases already there on your chosen topic, you can add a second case. When writing your wiki-Case, please follow these guidelines:

1. All cases must be real, nothing fictional or made up.
2. Please change all of the names so that while real, the situation cannot be attributed to an actual person.
3. Keep your cases to one page or less.
4. Write all of your cases in the past tense.
5. Be sure to end each case with a decision point in which someone in the case needs to make a decision and do something. This will likely mean that you write up a situation that you know about but don't tell the whole story, just up to a point where someone had to decide and then act.

Study Questions:	<i>What lingering questions do you have about leadership?</i>

The Three Levels of Leadership is a leadership model formulated in 2011 by James Scouller. Designed as a practical tool for developing a person's leadership presence, knowhow and skill, it aims to summarize what leaders have to do, not only to bring leadership to their group or organization, but also to develop themselves technically and psychologically as leaders. It has been classified as an "integrated psychological" theory of leadership. Level Three Leadership (L3L) uses a flexible leadership model to help practicing managers understand and apply the principles of leadership. This text focuses on what managers can do to influence the thinking and feeling of others—rather than focusing on changing behavior.Â Level Three Leadership: Getting Below the Surface (5th Edition) 5th Edition. by James G.
