The definitive book on friendship quilts, *Remember Me: Women & Their Friendship Quilts* is an intimate portrait of eight nineteenth-century quiltmakers. The lives of these women are all different, yet they are all shaped by birth, death, religion and war. Many of the women in this book, like Sarah S. Evans on her farm in Ohio, Betsey Wright Lee in a clapboard house in Connecticut and Fannie Cord Harris in her rock house in Kansas, were strong -- survivors despite their tragedies and hardships. Others, like twenty-two-year-old Ellen Spaulding Reed in the Wisconsin wilderness and thirty-eight-year-old Mary Ann in the Ohio wilderness, were blind to the mindset of their opposite-sex friends; because females generally were not attracted to their male friends, they assumed that this lack of attraction was mutual. As a result, men consistently overestimated the level of attraction felt by their female friends and women consistently underestimated the level of attraction felt by their male friends. Men were also more willing to act on this mistakenly perceived mutual attraction. These results suggest that men, relative to women, have a particularly hard time being "just friends." What makes these results particularly interesting is that they were found within particular friendships (remember, each participant was only asked about the specific, platonic, friend with whom they entered the lab).

Weirdly, I remember thinking, "My friend is here! My friend is here!" Even though things had been going great for me at the show, with Amy there, I felt less alone.

8. "Female friendships that work are relationships in which women help each other belong to themselves." Louise Bernikow.

9. "Call it a clan, call it a network, call it a family. Whatever you call it, whoever you are, you need one." Anonymous.

I hope you've enjoyed these friendship quotes and hopefully gained some friendship tips along the way. If you don't have this time of friendship in your life, look for people who won't just tell you what you want to hear, but will tell you what you need to hear. That's how you know you've found a good friend. It was especially difficult when said best friend had been with him for as long as he could remember, so the four years Oikawa had been missing seem so small in comparison. Iwaizumi had near constant slips where he would reminisce about Oikawa and their friendship as if he didn't run away the summer they graduated high school. Iwaizumi sighed. Now was not the time to ponder lost friendships. He was currently perusing aisles of the local grocery store, looking for dinner tonight and other groceries to last him at least two weeks.

"Mommy, buy this, buy this," a young voice pleaded.
