OV-21	Quilting Inside the Lines	Clarke, Pam	Quilting Designs

I also want each listing to have labels like Listing 2.1 where 2 is section number and 1 is number of given listing within that section. So far I was able to produce this code: `\documentclass[a4paper]{article} \usepackage{listings} \lstset{frame=Trbl,numbers=left} \begin{document} \renewcommand{\thelstlisting}{\thesection.\arabic{lstlisting}} \end{document}`. Both functions will return a list of lists, in which the number of items within each sublist is at most the length specified by the second function argument. Such functions are particularly useful when converting the 1-dimensional continuous list of x, y, & z coordinate values as returned by the ActiveX Coordinates property for a 2D or 3D polyline into a list of 2D or 3D points. Contents. Groups of Maximum Length. Dear customer, this listing is for a Personalized Paint By Number kit, It would make a really different present for the people you love. It is a not finish painting, you need to fill in the areas that marked with numbers with the corresponding paint yourself. People & Pets Portrait or any other pictures acceptable.
