EC- Due March 23

Uncle Eric observes that most news stories and political and economic analyses today are based on the left-right political spectrum--Liberals versus Conservatives. Uncle Eric advises that, instead, you focus on political power versus liberty. Where is power winning or losing and where is liberty winning or losing? Keep a record of news stories over the next few weeks. Note the issue, and also note if the solution will result in more government control or greater personal liberty. Finally, note if the source of the issue (control vs. liberty) is from the left or right of the political spectrum.
