Sleep disorders are among the most common clinical problems encountered in medicine and psychiatry. Inadequate or nonrestorative sleep can markedly impair a patient's quality of life. - 20-40% of all adults have insomnia in the course of any year. It is essential to have a clear idea of this complete classification of sleep disorders in order to deal with these patients appropriately. Table 1.5 Classification of important sleep disorders. The International Classification of Sleep Disorders (ICSD) was produced primarily for diagnostic and epidemiologic purposes so that disorders could be indexed and morbidity and mortality information could be recorded and retrieved. This classification is not intended to provide a differential diagnostic listing of sleep and arousal disorders. of Psychological Disorders) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Clinical Handbook of Psychological Disorders, Fifth Edition: A Step-by-Step Treatment Manual (Barlow: Clinical Handbook of Psychological Disorders), declaring it one of the best, something that all readers will enjoy. This clinical reference and widely adopted text is recognized as the premier guide to understanding and treating frequently encountered psychological disorders in adults. *Chapter on sleep disorders. Download: Clinical Handbook of Psychological Disorders, Fifth Edition: A Step-by-Step Treatment Manual (Barlow: Clinical Handbook of Psychological Disorders). Copyright Disclaimer: This site does not store any files on its server.

The book comprises three sections: Section I covers the basics of normal sleep, its functions, and its relationships to emotions, cognitions, performance, psychopathology, and public health and safety issues. Section II addresses abnormal sleep, including disorders like insomnia, parasomnias, circadian rhythm disorders, and sleep apnea. An informed classification of sleep/wake disorders is presented along with a protocol for assessing sleep-wake complaints and evidence-based treatment options.Â Colin A. Espie, editor
Colin A. Espie, MAppSci, PhD, CPsychol, FBPsS, FCS, is Professor of Clinical Psychology and Director of University of Glasgow Sleep Centre.
